BRINGING MORE EFFICIENT LANGUAGE INTO BUSINESS

What is Neurolanguage Coaching®?

NeuroLanguage Coaching® incorporates the latest findings in neuroscience as well as principles and tools from coaching into the traditional process of language teaching.

Through neuroscience we know that no two brains are the same, so neurolanguage coaching® is tailor-made learning to clients' needs, without books, but with clear and structured targets to achieve in defined periods of time.

This method and approach creates the perfect learning conditions for the brain leading to faster, more efficient, sustainable and cost-effective results. Our Language Coaches are the **FIRST** in the **WORLD** to be certified as **INTERNATIONALLY ACCREDITED LANGUAGE COACHES** (accredited by the ICF - International Coach Federation).

"Neurolanguage Coaching® is the efficient and fast transfer of language knowledge and skills from the Language Coach to the Language Coachee with sustainable effects facilitated by brain based coaching and coaching principles and neuroscience." © 2012 Rachel M. Paling

Award Winning Methodology

Neurolanguage Coaching® – A New Way For Language Learning

Winner of the 2019/2020 Science of Learning Bronze Award

ELC was selected by an extended panel of over 180 international judges as achieving outstanding standards for innovation, scalability, efficacy, and uniqueness.

How Neurolanguage Coaching® is delivered

A normal course of Neurolanguage Coaching® lasts approximately three months. In the weekly sessions the coach will inspire and motivate the client in each phase of his/her development.

In the first appointment, there is a short interview in which the coach identifies the client's requirements. After this, the client will become aware of his/her own targets to be achieved in a predefined period of time.

Each individual session normally lasts about one hour and the coach, using the Neurolanguage Coaching® method, will move the client towards the achievement of his/her goals in a much faster time period compared to normal teaching and also effortlessly.

After each meeting, the client decides if they would like to receive consolidation to work on autonomously, which will be discussed in the following session. Clients will always have the opportunity to contact our language coaches with any questions.
